DEFENCE TECHNOLOGY.
FOUNDED ON SCIENCE.

AMDC

AMDC is an independent engineering service provider with core competencies in the defense sector. Our focus is on advising the German Armed Forces and allied military forces in matters related to military research and technology.

Working Student Flight Testing & Flight Operations (m/f/d)

Passionate about aviation and eager to gain hands-on flight test experience? Join our team and help us shape the future of unmanned aviation by testing and operating cutting-edge UAV systems.

YOUR MISSION:

+ Prepare, execute, and document flight tests with a variety of UAV platforms
+ Support in the continuous operation of our UAVs
+ Work closely with our engineering team and provide valuable feedback from flight testing
+ Support flight test campaigns at locations across Germany

WHAT YOU`LL BRING:

+ Technical studies (e.g. Aerospace Engineering, Mechanical Engineering, Systems Engineering, or a related field)
+ Hands-on experience operating multicopters; experience with fixed-wing UAVs is a plus
+ Valid A1/A3 drone pilot certificate
+ Valid Class B driver's license
+ Strong English communication skills
+ Willingness to travel within Germany

WHAT WE OFFER:

+ Working student position with up to 20 hours per week
+ Competitive, above-average compensation
+ Work place: Ismaning
+ Start date: as soon as possible

Ready to take your passion for UAVs to the next level? We'd love to hear from you!
