Job Description:

Airbus Defence and Space is looking for a "Flight Control Engineer" (d/f/m)

Your location

Located about an hour's drive north of Munich, Manching is an up-and-coming market town that offers a wide range of leisure and cultural activities. Here, you can enjoy the quality of life in the countryside while the pleasures of near-by cities are still within easy reach.

Your tasks and responsibilities

Your main tasks and responsibilities will include all work related to flight dynamic modelling and assessment for unmanned aircraft. This means in particular

- Preparation of flight dynamics' models
- Handling qualities' assessment
- Documentation of assessment results
- Support to other departments in topics related with flight control laws (e.g. Simulation or flight test)

Desired skills and qualifications

We are looking for candidates with the following skills and experience:

- Masters Degree in Aerospace Engineering
- Experience in Flight Control and Flight Mechanics
- Simulink and Matlab knowledge/ experience
- Ability to work in a multi-cultural team
- English fluent, German would be a plus

We offer you:

- Challenging tasks for/with unique services and products
- Pleasant working atmosphere in a professional and international work environment
- Exciting upskilling opportunities and perspectives
- Flexible working hours
- Compatibility of work and family life
- Attractive remuneration (incl. holiday pay, Christmas bonus and profit sharing)
- Company Pension Scheme
- 30 days holidays and extra days-off for special occasions
- Special benefits, such as employee stock options, discounted car leasing, special conditions for insurances, public transport subsidy, discounts at local businesses
- On-site-facilities: Medical officer for check-ups and other health-related services, canteen and cafeteria

At Airbus, we support you to work, connect and collaborate more easily and flexibly. Wherever possible, we foster flexible working arrangements to stimulate innovative thinking.
